

FATHIMATH SHEBA C

FRONTEND DEVELOPER

shebacee.dev@gmail.com | +918714404396 | [LinkedIN](#)

SUMMARY

BCA graduate pursuing MCA with specialization in Data Analysis, equipped with hands-on experience in full-stack web development and AI integration. Proficient in HTML, CSS, JavaScript, Python, and MySQL with demonstrated ability to build scalable, user-centric applications. Developed EON, a comprehensive academic full-stack project combining book trading, collaborative study tools, a community-driven quiz system, and content moderation—showcasing expertise in database design, authentication systems, and CRUD operations. Created an AI-powered Dubai Trip Assistant chatbot leveraging OpenAI API and Streamlit for personalized travel planning with session management. Strong foundation in frontend development, backend architecture, API integration, and software development practices. Proven ability to deliver end-to-end solutions from concept to deployment. Seeking entry-level Frontend Developer roles to apply technical expertise and contribute to innovative digital products.

EDUCATION

Master of Computer Applications (MCA – Data Analysis) *Present*

Jain University, Bangalore, India

Bachelor of Computer Applications (BCA) *2022 To 2025*

Kannur University, Kerala, India

CGPA: 7.4

Higher Secondary Education *2021*

Mambaram Higher Secondary School

CBSE – 90%

PROJECTS

Dubai Trip Assistant – AI Chatbot | Python & Streamlit | 2025

- Developed an intelligent conversational AI chatbot for Dubai vacation planning using Python, Streamlit, and OpenAI's GPT-4o-mini API.
- Delivered personalized travel recommendations for accommodations, dining, transportation, and sightseeing based on user preferences and budget.
- Implemented session management for conversation context and designed custom system prompts to maintain a professional, engaging persona.
- Built an interactive real-time chat interface with secure API key management using environment variables (dotenv).
- Gained practical experience in API integration, prompt engineering, and state management for AI-powered applications.

EON – Book Trading & Study Collaboration Platform | Academic Full-Stack Project

- Developed a full-stack web platform for book trading, collaborative study sessions, and blog-style community engagement.
 - Built the frontend using HTML, CSS, and JavaScript; implemented backend in Python with MySQL database integration.
 - Designed a community-driven MCQ system with a user-contributed question bank for dynamic quiz generation and created an admin panel for content moderation.
 - Integrated an AI chatbot for user assistance and managed authentication, CRUD operations, and dynamic content across multiple modules.
-

SOFT SKILLS

- Strong communication and collaboration skills
 - Detail-oriented with a commitment to accuracy
 - Self-motivated learner with a passion for emerging technologies
 - Problem-solving mindset with focus on delivering quality solutions
-

LANGUAGES

- English: Fluent
 - Malayalam: Native
 - Hindi: Conversational
